Re: Release of the Fiscal Year 2010 WSCPR Request for Proposals

The Washington State Commission on Pesticide Registration (WSCPR) is releasing its annual Request for Proposals (RFP). Due to a budget cut, the Commission will be reducing its meeting schedule from six to four, including a single funding meeting. The meeting will be December 2nd, 3rd and 4th at the Washington Cattleman's Association in Ellensburg. This is the only scheduled funding meeting for the next 12 months for the WSCPR. (*There will be no WSCPR meeting in Portland in January.*)

The deadline for proposal submission is 30 days prior to the meeting at which the proposal will be heard. The deadline for the FY 2010 will be November 4th.

Due to the large number of proposals that are expected to be heard at this meeting, the WSCPR Board has instructed me to ensure that all proposals adhere to RFP guidelines. Proposals not adhering to these guidelines may be rejected. (*Hint: Make sure you use 12 point font.*)

Anyone with questions should contact Jessica Welch or myself. We will be happy to assist you if possible. Also, early submission of proposals is encouraged.
