DATE: JUN 16 2011
EXPIRATION DATE: June 30, 2011
FINAL REPORT DUE: December 31, 2011
FILE SYMBOL: 11WA02
*****AMENDMENT*****

Attn: Steve L. Foss

The Environmental Protection Agency hereby amends a specific exemption authorized under the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, to Washington State Department of Agriculture for use of linuron on lentils to control Mayweed Chamomile or Dog Fennel (*Anthemis cotula*) and Prickly Lettuce (*Lactuca serriola* L.)

Because of late planting this spring due to cooler temperatures, the Applicant has requested that the expiration date be extended from June 20 to June 30, 2011. Items (5) and (6) are therefore amended to read as follows:

5. This exemption expires June 30, 2011.
6. A final report summarizing the results of this program is due by December 31, 2011, or prior to submitting another request for this use.

All other conditions and restrictions of the original authorization, dated March 8, 2011 remain unchanged.

Barbara Madden, Acting Branch Chief
Risk Integration, Minor Use, and Emergency Response Branch
Registration Division
Office of Pesticide Programs
