RE: Voluntary Cancellation of EPA SLN Reg. No. WA-000031

The Wrap Pack Company has voluntarily cancelled Washington Special Local Need (SLN) registration number WA-000031 for use of Pear Wrap (EPA Reg. No. 61718-1) to prevent scald on pears because this use has been added to the section 3 label.

Attached is a copy of the written request from the Wrap Pack Company to cancel this SLN.

If you have any questions, please contact this office at (360) 902-2049 or by e-mail at [sfoss@agr.wa.gov](mailto:sfoss@agr.wa.gov).

**Attachments:** PEAR WRAP 3 Label 90810.doc

Steve,

As you are aware, in the reregistration process for Wrap Pack Inc. (#61718) registered product Pear Wrap III Treated with Ethoxyquin and Copper (reg # 61718-1) has had a label change that includes the language that describes the usage for ethoxyquin in conjunction with line spray, drench, and our treated wrap. The new language incorporated into the label precludes the need for an SLN in Washington State.

We respectfully ask to discontinue our current Washington State SLN #WA-00031, due to the changes to our EPA registered label.

I have included a copy of our labels, as they will appear without the SLN.

Best Regards,

Len Geren
