Bayer CropScience has voluntarily cancelled Washington Special Local Need (SLN) registration number WA-090006 for use of NemaCur 3 (EPA Reg. No. 264-731) on iris bulbs and Narcissus bulbs to control nematodes because there is no longer any stock available. Sales have ceased and the product cannot be used after 12/31/2010.

Attached is a copy of the written request from the Bayer CropScience to cancel this SLN.

If you have any questions, please contact this office at (360) 902-2049 or by e-mail at sfoss@agr.wa.gov.
