RE: EPA SLN Registration Number WA-040034

Enclosed is revised labeling for Washington Special Local Need (SLN) registration number WA-040034 for the use of Diazinon AG500 on potato to suppress wireworms.

The SLN label was revised to: (1) clarify that diazinon provides suppression of wireworms and (2) include several minor revisions for consistency with current WSDA requirements for SLN registrations and the federal label for Diazinon AG500.

The SLN registration will expire on December 31, 2010, since WSDA anticipates that additional label revisions will be required in the near future to address endangered species issues.

If you have any questions, please contact me at (360) 902-2078 or by e-mail at ejohansen@agr.wa.gov.

Sincerely,

PESTICIDE MANAGEMENT DIVISION

Erik W. Johansen

Special Pesticide Registration Program Coordinator
