RE: EPA SLN Reg. Number WA-970029

Dear Debra,

Enclosed is revised labeling for Washington Special Local Need (SLN) registration number WA-970029 issued to Loveland Products for the use of Dimethoate 400 (EPA Reg. No. 34704-207) on green pea and dry pea to control aphids.

This SLN registration was revised to be consistent with residue data, the federal label and WSDA requirements. Residue data from IR-4 support the use rates, application intervals and PHI. Restrictions to protect salmonids are consistent with recommendations from WSDA's environmental toxicologist. Restrictions to protect pollinators are consistent with WSDA requirements. This SLN registration will expire on December 31, 2016.

If you have any questions, please contact me at (360) 902-2078 or by e-mail at ejohansen@agr.wa.gov.

Sincerely,

PESTICIDE MANAGEMENT DIVISION

Erik W. Johansen
Special Pesticide Registration Program Coordinator
