

## WASHINGTON

# DryTec® Calcium Hypochlorite Granular

EPA REG. NO. 1258-427

EPA SLN NO. WA-110008

- ... It is a violation of Federal law to use DryTec® Calcium Hypochlorite Granular in a manner inconsistent with its labeling.
- ... This labeling must be in the possession of the user at the time of application.
- ... Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.
- ... Read and understand Syngenta's Special Conditions and Disclaimer for use before using DryTec® Calcium Hypochlorite Granular on pepper seeds.

### **Directions for Use**

To control bacterial spot on pepper seeds, soak seeds in 39,000 ppm solution of DryTec® Calcium Hypochlorite Granular for 15 minutes with continuous agitation. The solution may be made by mixing 8 oz. of this product with 1 gallon of water. After treatment, rinse seeds in potable water for 15 minutes. Dry the treated seeds to their normal storage moisture.

### **Restrictions / Precautions:**

#### **WSDA Container Disposal Guidance:**

Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading, because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the WSDA Waste Pesticide Program web site at <http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx>. Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the county. Burning is not a legal method of container disposal in Washington.

**Estimated Maximum Annual Product Use Rate:** 100 lbs

This label for DryTec® Calcium Hypochlorite Granular expires and must not be distributed or used in accordance with this SLN registration after December 31, 2016.

**Syngenta's Special Conditions and Disclaimer for use of DryTec® Calcium Hypochlorite Granular on pepper seeds:**

Syngenta intends that this Section 24(c) label be distributed only by Syngenta only to end users and/or growers who agree in writing to the terms and conditions required by Syngenta, including a waiver and release from all liability and indemnification by the user and/or grower of Syngenta and others for failure to perform, and crop damage from the use of DryTec® Calcium Hypochlorite Granular on pepper seed. If such terms and conditions are unacceptable, return the DryTec® Calcium Hypochlorite Granular at once unopened. DryTec® Calcium Hypochlorite Granular, when used on pepper seed, may lead to crop injury, loss, or damage. Syngenta recommends that the user and/or grower test DryTec® Calcium Hypochlorite Granular in order to determine its suitability for such intended use. Syngenta makes this DryTec® Calcium Hypochlorite Granular available to the user and/or grower solely to the extent the benefit and utility, in the sole opinion of the user and/or grower, outweigh the extent of potential injury associated with the use of DryTec® Calcium Hypochlorite Granular. The decision to use or not to use DryTec® Calcium Hypochlorite Granular must be made by each individual user and/or grower on the basis of possible crop injury from DryTec® Calcium Hypochlorite Granular, the severity of bacterial infestation, the cost of alternative bacterial disease controls, and other factors. Syngenta intends that because of the risk of failure to perform or crop damage that all such use of DryTec® Calcium Hypochlorite Granular is at the user's and/or grower's risk, to the extent consistent with applicable law. This Special Conditions and Disclaimer statement is required by Syngenta and is not required or enforced by the USEPA or the WSDA.
