FURADAN® 15 G

Insecticide-Nematicide

For Agricultural or Commercial Use Only**EPA Reg. No. 279-3023****FOR EMERGENCY ASSISTANCE CALL: (800) 331-3148**

- **IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.**
- **THIS LABELING MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF APPLICATION.**
- **FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS, WORKER PROTECTION STANDARD REQUIREMENTS, AND PRECAUTIONS ON THE EPA REGISTERED LABEL.**

CROP	PEST	RATE OF APPLICATION
Spinach Grown for Seed Only	Springtails	6.7 ounces per 1,000 linear feet of row

DIRECTIONS FOR USE:

- Apply Furadan 15 G to spinach grown for seed only at a rate of 6.7 ounces per 1,000 linear feet of row. Apply as a seed-furrow treatment at the time of planting. Do not apply more than 13 pounds of granules per acre.

RESTRICTIONS / PRECAUTIONS:

- Do not enter or allow worker entry during the restricted entry interval (REI) of 48 hours.
- Do not apply to coarse-textured soils.
- For use under this SLN registration do not apply this product through any type of irrigation system.
- All spinach seed screenings shall be disposed of in such a way that they cannot be distributed or used for human food or animal feed. The seed conditioner shall keep records of screening disposal for three years from the date of disposal and shall furnish the records to the director immediately upon request. Conditioner disposal records shall consist of documentation of on-farm disposal, disposal at a controlled dumpsite, incinerator, composter, or other equivalent disposal site and shall include the lot numbers, amount of material disposed of, the growers(s), and the date of disposal.
- No portion of the spinach plant, including but not limited to green chop, hay, pellets, meal, whole seed, cracked seed, roots, bulbs, leaves and seed screenings may be used or distributed for food or feed purposes.
- Spinach seed shall bear a tag or container label which forbids the use of the seed for human consumption or animal feed.
- Spinach seed may not be distributed for human consumption or animal feed.
- This pesticide is toxic to fish, birds and other wildlife. Furadan 15 G may not be used under this SLN label where adverse impact on listed threatened or endangered species is likely. You may refer to the WSDA Endangered Species Program web site at <http://agr.wa.gov/PestFert/NatResources/EndangSpecies.aspx>, or contact the Washington Department of Fish & Wildlife, National Marine Fisheries Service (NOAA Fisheries) or US Fish & Wildlife Service for information regarding aquatic species listed as threatened or endangered. Consult the federal label for additional restrictions and precautions to protect aquatic organisms.

- Runoff from treated areas may be hazardous to fish in neighboring areas. Do not apply directly to water. Do not contaminate wells, wetlands or any body of water by cleaning of equipment or disposal of waste.
- Birds feeding on treated areas may be killed. Birds killed by carbofuran (Furadan 15 G) pose a hazard to eagles, hawks and other birds of prey; contact the Washington Department of Fish & Wildlife or the US Fish and Wildlife Service upon finding birds or other animals that may have been poisoned. Incorporate any spills immediately to prevent birds from contacting exposed granules.
- **Notice:** It is a violation of the Federal Migratory Bird Treaty Act to use any pesticide in a manner that results in the death of a migratory bird.
- Carbofuran is a chemical which can travel (seep or leach) through soil and can contaminate ground water which may be used as drinking water. Carbofuran has been found in ground water as a result of agricultural use. Users are advised not to apply carbofuran where the water table (ground water) is close to the surface and where soils are very permeable, i.e., well-drained soils such as loamy sands. Your local agricultural agencies can provide further information on the type of soil in your area and the location of ground water.
- **WSDA Container Disposal Guidance:**
Completely empty the contents of the pesticide container into application equipment, and apply to a labeled crop or site. The empty container may be disposed of in a sanitary landfill. Burning is not a legal method of container disposal in Washington.

- **This label for Furadan 15 G expires and must not be distributed or used in accordance with this SLN registration after December 31, 2011.**
