RE: EPA SLN Reg. No. WA-900012B

Dear Teresa:

Enclosed is Washington Special Local Need (SLN) registration number WA-900012B issued to Arysta LifeScience North America, LLC for the use of Basagran Herbicide (EPA Reg. No. 7969-45-66330) on alfalfa grown for seed to control broadleaf weeds. This supplemental distributor SLN registration was issued under the authority of Section 24(c) of FIFRA.

Any action taken on or changes made to the primary SLN registration also affects the distributor SLN registration. If BASF Corporation decides to voluntarily cancel the primary SLN registration, the Arysta SLN registration is automatically canceled. It is your responsibility to communicate with BASF and to stay current with planned changes to the primary SLN registration.

WSDA is issuing SLN registration WA-900012B with an expiration date of December 31, 2010.

If you have any questions, please contact me at (360) 902-2078 or by e-mail at ejohansen@agr.wa.gov.

Sincerely,

PESTICIDE MANAGEMENT DIVISION
